Contact Information

Name: _____

City/Town: _____

Province/State: _____

Primary Phone Number: _____

Alternate Phone Number: _____

Email Address: _____

Name of the Hi-Hog dealer you wish to work with (optional): _____

Describe your herd

(Number of head, temperament of your livestock, horned/dehorned, cow/calf or other, expanding herd size. Etc)

Describe your proposed corrals

What kinds of pens are you considering? (Number of pre-sorting pens, Number of post-handling pens, sick pen, Number of animals per pen, Number of animals in holding pen, Will any pens hold stock for an extended period, etc. Will the corrals be built all at once or in phases?)

Describe your proposed handling system

(What components do you think you may want in your handling system; loading chute, manual or hydraulic squeeze chute, calf table, S-alley, U-Alley, combination alley, type of crowding tub or perhaps a Bud box, etc.).

Additional Information

(Any additional information that may impact the design)

Describe your Site

On another piece of paper please provide a sketch of the site where you propose to install your corrals and handling system. Include a North arrow. Indicate the location of any physical features that may impact the design such as existing livestock equipment that you need to tie into. Indicate where the livestock will be approaching the corral from. Indicate where you would like to locate any key components such as a loading chute, squeeze chute, calf tipping table, etc.
